## HAMMER MILL

The hammer mill made of AISI 316, has been designed for grinding solid product like cereals, plastics, resins, minerals, vegetables, etc, with results up to 50  $\mu$ .

The drum is made of stainless steel AISI 316 with thermal treatment in order to get the maximum hardness.

The casing box is made in dull-finish white.

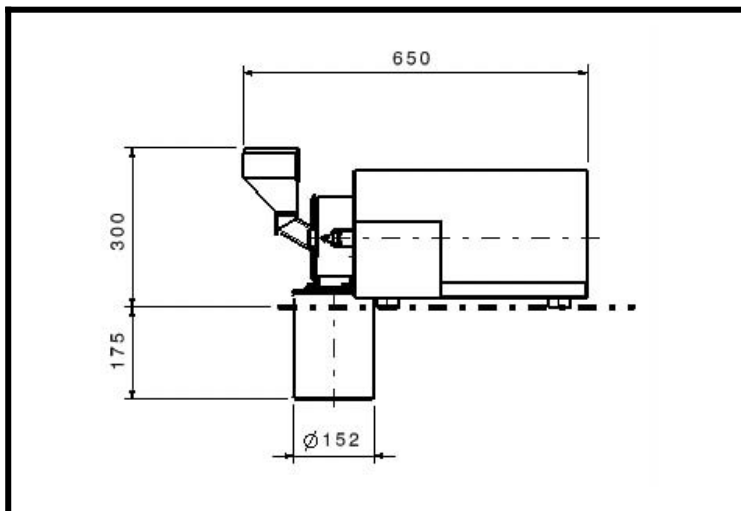

Moreover, the hammer mill has been designed for working with different types of sieves with round perforation (2, 3, 4 and 5 mm).

Includes 3 knives in stainless steel long term duration and easy to change.

In order to get a better test results the handling is done through a frequency variator.

Available model: **FML-2000**

TECHNICAL FEATURES				
<b>FML-2000</b>	220-240 V 50-60 Hz	0.75 kW	5.4 A	3000 rpm.

Hammer mill with sieves and knives changeables.

### INCLUDES:

- ▶ Hammer mill.
